75% - Helps end hunger globally

CWS (Church World Service)

CROP Hunger Walks help CWS work in partnerships around the world with local people to provide food and water, as well as resources that empower people to meet their own needs.

From seeds and tools, to wells and water systems, to technical training and micro-enterprise loans, the key is people working together to identify their own development priorities, their strengths, and their needs.

In Washington State, CWS has helped flood victims and has organized training for natural disasters. CWS blankets and health kits have been donated.
